WORK EXPERIENCE

Frontend Engineer

Nextl

📅 Jul 2022 - Feb 2026

📍 Australia (Remote)

- Build and maintain scalable frontend applications using React and Typescript
- Developed reusable UI components and shared patterns to improve consistency and maintainability
- Integrate frontend features with backend APIs and services (GraphQL)
- Optimize performance by improving rendering efficiency, data fetching, and component structure
- Collaborate with backend engineers to troubleshoot issues and deliver end-to-end features
- Contribute to code quality through reviews, refactoring, and documentation

Frontend Developer

Joblify Connect

📅 Jul 2021 - Jul 2022

📍 South Africa (Remote)

- Maintained the Joblify Connect Admin Portal using React, implementing user feedback to enhance functionality for 50+ active users.
- Developed dynamic user interface features with React and Next.js using TypeScript, enhancing application performance and user experience.
- Integrated a WhatsApp chatbot system and third-party services, resulting in a 25% increase in user interactions on the web application.
- Worked closely with backend systems to support internal user workflows
- Improved usability and reliability of operational tools
